

6th Workshop on Cognition and Control

January 26th & 27th, 2023

University of Florida @ Reitz Union

The purpose of this meeting is the same as the previous C³ workshops: to educate each other and the public, and to engage in discussion related to topics in control and cognition (which includes information theory and statistical learning).

The conference will be composed of talks given by experts as well as a poster session where UF students can present their research and network. All talks will be held in the Chamber Room, while the poster session will take place in Rooms 3315 & 3320.

Workshop Schedule

Thursday

9:00 AM	Opening Remarks
